

Improve your Email Score using the below DNS Entries

DKIM

Docs: <https://docs.microsoft.com/de-de/microsoft-365/security/office-365-security/use-dkim-to-validate-outbound-email>

Host name: **selector1._domainkey** Type: **TXT** TTL: **3600**

value: **selector1-YourDomain-TLD._domainkey.YourTenant.onmicrosoft.com**

Host name: **selector2._domainkey** Type: **TXT** TTL: **3600**

value: **selector2-YourDomain-TLD._domainkey.YourTenant.onmicrosoft.com**

- **Activate DKIM:**
[Exchange Admincenter](#) > **Protection** > **DKIM** – < **activate** DKIM > (right side)

DMARC

Docs: <https://docs.microsoft.com/de-de/microsoft-365/security/office-365-security/use-dmarc-to-validate-email>

Example:

Host name: **_dmarc.YourDomain.TLD**

Type: **TXT**

value: **"v=DMARC1; p=none"**

TTL: **3600**
